THE STATE Supreme Court of Massachusetts yesterday upheld the decision of the lower court and reinstated an injunction against construction of a reservoir to be located a few miles west of Arkham. Judge Harris, presiding other the court, announced the 4-3 decision.

The injunction was first filed last August by Robert Angley of the University Botany Dept. Professor Angley claims that several species of rare wildflowers exist in the area to be flooded and that these rare species cannot be found anywhere else. Commonwealth engineering officials termed the injunction meaningless, pointing out that only surveys and planning are scheduled to be performed before August of next year and that the persent injunciton lasts only until next July

## Earthquake Devastates Colombian Mountain Town

BOGOTA, Colombia -- An earthquake devastated the mountain city of Popayan Thursday, toppling schools, homes and churches filled with tourists and worshippers for Holy Week. At least 100 people were killed and 1,150 were injured.

Unconfirmed radio reports said up to 60 percent of the city was destroyed and indicated the death toll could double or triple.

Two light aftershocks at night frightened anew many residents who refused to re-enter their homes which collapsed sporadically through the day.

Tens of thousands of people were reported homeless. Water and power lines were cut and three fires erupted but they were quickly brought under control, police said.

The runway of the city airport was closed by debris until late afternoon and small aircraft and helicopters began shuttling in water, food, medicine and supplies of clothing, officials said.

Seismic waves also tore open fresh graves in the city cemetery, sending a foul odor over the destruction.

Stray dogs reportedly had begun chewing on bodies and army marksmen wearing gas masks were sent to kill the animals before they can spread disease, Red Cross officials said.

Three blocks were demolished and 15 buildings elsewhere collapsed from the quake, which measured 5.5 on the Richter scale and was centered 60 miles west of the city nestled at the foot of an active volcano, according to the U.S. Geological Survey.

A high school, the city hall, the national telecommunications building and several hotels were heavily damaged and the spires of the town cathedral and the Santo Domingo church collapsed on hundreds of parishoners.

Rescuers pulled 60 bodies out of the churches, but Msgr. Samuel Silverio Buitrago, the archbishop of Popayan, said in a radio broadcast 'most of the people are still trapped inside.'
